PPHF Program: Chronic Disease Self-Management Program

Title: PPHF – 2012 – Empowering Older Adults and Adults with Disabilities through Chronic Disease Self-Management Education Program financed by 2012 Prevention and Public Health Funds (PPHF-2012)

Recipient: Arizona Department of Health Services, BTCD, Arizona Healthy Aging (A-HA)

Reporting Period: 7/1/2012 –12/31/2012

PPHF Fiscal Year Allocation: FY 2012

PPHF Funding Amount: \$272,619.00

Number: HHS-2012-AOA-CS-1211

Mechanism/Procurement Type: Cooperative Agreement

CFDA Number (if applicable): 93.734

Summary of Activities:

The ADHS-BTCD proposes the following goals and objectives for its *AoA Empowering Older Adults and Adults with Disabilities through CDSME* project:

- 1) Significantly increase the number of older and/or disabled adults in Arizona with chronic conditions who complete the Stanford Chronic Disease Self-Management Program (English and Spanish CDSMP) and/or the Diabetes Self-Management Program (English and Spanish DSMP) with a purpose of maintaining or improving individual health status and;
- 2) Strengthen and expand integrated and sustainable service systems within Arizona offering CDSMP and DSMP.

We have a late start; however, have initiated an Interagency Service Agreement (ISA) to establish targeted contracts to achieve the ADHS, BTCD, A-HA proposed goals of providing the CDSMP and DSMP.

We anticipate rolling out the contracts by February, and expect to be on target in meeting the proposed goals and objectives.

Description of Data Requested

The following provides a brief explanation of the data requested in the fields above.

Agency: This is the name of the Operating Division that awarded funds. Do not change.

PPHF Program: This is the program name listed on the PPHF website. Do not change.

Title: This is the title used in the program announcement. Do not change.

Recipient: Arizona Department of Health Services, Bureau of Tobacco and Chronic Disease, Arizona Healthy Aging (A-HA).

Reporting Period: This reporting cycle will capture funds awarded from July 2012 through December 2012. For this report, leave the dates of July 1-December 31, 2012.

PPHF Fiscal Year Allocation: This is the fiscal year allocation that provided the funding. Do not change.

PPHF Funding Amount: \$272,619.00.

Number: This is the grant award number. Do not change.

Mechanism/Procurement Type: You received a cooperative agreement. Do not change.

CFDA Number: This is the CFDA number associated with this grant award. Do not change.

Summary of Activities: The notice of award was received in October and we were unable to begin until funded. Focus groups were conducted, including the Governor's Council on Aging and the ADHS leadership group. Meetings with the Arizona Department of Economic Security (DES) Division of Aging Adult Services (DAAS) to collaboratively initiate an Interagency Service Agreement (ISA).

DES has the statutory exemption and the authority to issue funds to our partners in order to fulfill the intended purpose. The ISA further secures the historic partnership with DES, and gets the money in the hands of the Area Agencies on Aging (AAA's) and Arizona Living Well Institute (AzLWI) much quicker, while maintaining our fidelity in promoting seamless integration with both DES-DASS and the Governor's Council on Aging. By doing so, we are in the midst of creating a model for collaboration across State agencies.

This further helps integrate, on a program level, with our Diabetes Self-Management Training (DSMT) in an effort to bring about a common, coordinated plan implementation. Though the funding has not yet hit the streets, as of the date this report is composed; the services are rendered and it appears that we will make up for the time elapsed since funds were awarded nearly a quarter ago. It is anticipated that the funds will be disbursed to partners by DES DAAS sometime in February. It must be noted that partnering with ADES-DAAS provides an added value of funding our programs without going through the required ADHS “open and competitive” procurement process.

Sub-Award Recipients: Includes all sub-grants, and any sub-contract action with a value of \$25K or more.

Sub-Award Recipient 1: ADES – DAAS proposed amount of \$202,234.00.

Sub-Award Date: Anticipated late January, early February 2013.

Number: Include the prime recipient award number (HHS-2012-AOA-CS-1211)

PPHF Funding Amount: Include the amount of funding awarded.

Purpose: Funds to be utilized as per the submitted AZ Empowering Older Adults through CDSMP budget.

Note: add additional sub-recipient sections as necessary to fulfill reporting requirements. Delete “sub-recipient 2” if not necessary.

Summary of Activities:

Massachusetts has held nineteen Chronic Disease Self Management (*CDSMP*) workshops since July 1, 2012, with 208 consumers attending and 160 completing the workshops. Eighteen workshops for CDSMP, DSMP, Chronic Pain Self-Management and Tomondo du Salud have already been scheduled for the coming year.

Fifty-eight new leaders have been trained in CDSMP and Diabetes Self Management (DSMP)

On September 27, a “Sharpening Your Skills Conference” was held for CDSME program leaders. The full-day educational program was attended by 113 leaders and featured workshops on such topics as *Implementing Evidence-Based Tai Chi*, *Successes in Powerful Tools for Caregivers*, *Integrating Programs within the Health Care Delivery System*, *Diabetes Self-Management Reimbursement*, *Stanford’s Chronic Pain Program* and *Best Practices among Diverse Population*.

Planning meetings have been held to finalize work plans and operationalize grant activities. Hiring activities have been initiated for staff at the Executive Office of Elder Affairs and the Healthy Living Center for Excellence.

Three new regional collaboratives have been created, for a total of six collaboratives covering the whole state. Regional collaboratives are coalitions of local health and human services providers, medical providers, aging services network providers, governmental agencies and private businesses that reach out to potential host agencies, referral agencies and participants to provide CDSMP and other healthy aging programming in their communities

PPHF Funding: \$398,399

Summary of Activities:

The SC Lieutenant Governor's Office (LGOA) and SC Department of Health & Environmental Control (DHEC) held a grantee meeting with the regional sub-grantees (aging and public health teams) to review the new grant objectives and to secure their continued commitment to expand CDSME programs. Training and discussion focused on the topics of partnership building, marketing, and growing and sustaining evidence-based programs.

The LGOA hired a new Title IIIB, Nutrition, Health and Wellness Coordinator in December who will serve as the grant manager for CDSME.

We continue to hold monthly conference calls with the regional teams. All Master Trainers have enrolled in the new (2012) CDSMP online refresher training held by Stanford. Regions have been encouraged to continue to collaborate with their local Federally Qualified Health Centers (FQHCs) and to schedule workshops for their patients.

A leader training was held for the Dorn Veterans Administration Medical Center (Dorn VA) and beginning in January, the Dorn VA will offer CDSMP workshops to augment their patient

centered medical home model of care. A second leader training was held with a diverse group of partners, including Catawba Indian Nation.

Eleven sub-awards were given to partners to begin, continue or expand CDSME programs in their areas; recruit additional leaders; develop partnerships, and promote CDSME programs. Awards ranged from \$5,000 to \$16,000 in addition to those listed below.

Sub-Recipient: South Carolina Department of Health & Environmental Control
