

Presidential Advisory Council on Combating Antibiotic-Resistant Bacteria (PACCARB) – Stewardship

Lynn Filpi, PhD

The Office of Pandemics and Emerging Threats
Office of Global Affairs | Office of the Secretary
The U.S. Department of Health and Human Services

Promoting and Prioritizing Stewardship

WHO

- World Health Organization
 - WHO Global Action Plan (GAP)
 - WHO Stewardship and Development Framework called for in resolution 68.7, and reinforced in the G20 Health and UNGA declarations

G7

- 2015 German Presidency
 - Berlin Declaration committed G7 countries to “strengthen antibiotic stewardship programs for professionals in the medical and veterinary fields within our countries.”
 - Best Practices Brochure
- 2016 Japanese Presidency
 - Kobe declaration we recommitted to support the “WHO in developing a WHO global development and stewardship framework”

G20

- 2017 G20 German Presidency
 - Health Declaration “We will raise awareness of AMR through prevention and stewardship campaigns among all relevant stakeholders – general population, health professionals, researchers, institutions, government and private sector –as part of a balanced approach to addressing the five objectives of the WHO Global Action Plan on AMR.”
 - Global Collaboration Hub on AMR Research and Development

UNGA Side Meeting

- **Prevention: Antibiotic Stewardship and Infection Prevention and Control**
 - Sponsored by Japan, Thailand, U.K., U.S.A
 - The panelists addressed steps to mitigate resistance by antibiotic stewardship and infection prevention and control measures throughout health systems.
