

GENERAL RECORDS SCHEDULE 6.1: Email Managed under a Capstone Approach

This schedule applies *only* to Federal agencies that implement a Capstone approach as described in this GRS. When implementing this GRS, agencies should consult the FAQs about GRS 6.1, Email Managed under a Capstone Approach. Agencies are reminded that this GRS should not be implemented in isolation, and should be supplemented with agency-wide policies and training, as well as incorporated into agency records management implementation tools, such as manuals and file plans. Agencies adopting a Capstone approach should also consult other resources available from NARA related to email management, specifically the Capstone approach. These resources are available on NARA's [email management page](#) and are summarized in the introduction to the FAQ.

Agencies must not implement this GRS until obtaining approval of [NARA form 1005 \(NA-1005\), Verification for Implementing GRS 6.1](#). Agencies are required to obtain approval of a resubmitted NARA form 1005 at least every four years. Additional information, including a link to the form, may be found in the FAQs and in the instructions accompanying the form.

GRS Scope

Email can be managed at an account level, at a mailbox level, in personal folder files, or other ways. This GRS applies to all email, regardless of how the email messages are managed or what email technology is used. Email, in the context of this GRS, also includes any associated attachments. This GRS may apply to records affiliated with other commonly available functions of email programs such as calendars/appointments, tasks, and chat.

Each agency is responsible for determining the scope of implementation when using Capstone, including, 1) The range of implementation in an organization (agency-wide, specific office, etc.); and 2) The range of implementation regarding email technology and system platforms. Brief information on the scope of an agency's Capstone implementation is also required on NA-1005.

Agencies are also responsible for defining (and documenting through policy) the official recordkeeping version of email to be managed under a Capstone approach, especially when email is captured or retained in multiple locations (e.g., an email archive vs. the live system). All other versions of email can be considered nonrecord, the retention of which should be addressed in agency email policy.

Agencies are expected to apply documented selection criteria to cull the email of Capstone officials (permanent accounts) to the greatest extent possible before transfer to NARA. Culling refers to the removal – or otherwise excluding from capture – of nonrecord, personal, or transitory messages and attachments. Culling typically includes the removal of spam, email blasts received (such as agency-wide communications), and personal materials (such as emails to family members not related to agency business). Culling may be manual, automated, or a hybrid of both. Agencies may develop their own policies and procedures for the culling of temporary accounts.

Applying this GRS

When applying this GRS in part, agencies must ensure that all other email records are covered by another NARA-approved disposition authority. Agencies NOT

managing any of their email under the Capstone approach are still responsible for managing their email by applying NARA-approved records schedules.

If an agency is implementing a Capstone disposition approach different from what is provided in this GRS, the agency must submit a records schedule. For example, an agency may want to narrow the list of required positions in item 010, use shorter retention lengths for temporary records, or extend the time frame for transfer of permanent records.

Agencies have discretion to designate individual email messages, with their attachments as permanent, or as longer-term temporary records that should be cross-filed elsewhere pursuant to agency policies and business needs.

Agencies must transfer to NARA the emails of Capstone officials captured during their tenure as a Capstone official. Therefore, email of Capstone officials created prior to their designation as a Capstone official (e.g., prior to their promotion/rotation into a Capstone position) should be treated as temporary and not transferred to NARA. For guidance on transferring email as a permanent record, see NARA Bulletin 2014-04, Revised Format Guidance for the Transfer of Permanent Electronic Records and the relevant sections of [36 CFR Part 1235](#).
