Name:

Asthma Information Reporting System (AIRS)

PIA Unique Identifier:

P-5463672-896863

The subject of this PIA is which of the following?

Minor Application (child)

Identify the Enterprise Performance Lifecycle Phase of the system.

Operations and Maintenance

null

Does the system include a Website or online application available to and for the use of the general public?

No

Identify the operator.

null

Is this a new or existing system?

Existing

Does the system have Security Authorization (SA)?

No

Indicate the following reason(s) for updating this PIA.

PIA Validation

Describe in further detail any changes to the system that have occurred since the last PIA.

None

Describe the purpose of the system.

The Air Pollution and Respiratory Health Branch (APRHB) of the National Center for Environmental Health (NCEH) leads CDC's fight against environmental-related respiratory illnesses, including asthma, and studies indoor and outdoor air pollution. The Asthma Information and Reporting System (AIRS) is a web-based reporting system designed to provide a platform for national asthma program grantees to report on their periodic progress. AIRS allows APRHB's grantees to document information relevant to their programs including resources, work plan and evaluation measures.

Describe the type of information the system will collect, maintain (store), or share.

AIRS collects information from state health department grantees regarding their cooperative agreement activities with the CDC's National Asthma Control Program. Data collected includes project work plans, intervention activities, asthma hospitalization data, types of surveillance data collected, evaluations of the program, and status of the overall project.

Provide an overview of the system and describe the information it will collect, maintain (store), or share,

AIRS is a web based grantee reporting system which collects data on programs' progress and planned activities under a cooperative agreement with the CDC's National Asthma Control Program.

Does the system collect, maintain, use or share PII?

No
