STATEMENT OF WORK

**STATEMENT OF WORK**  
**PROCUREMENT OF SAFETY NEEDLES AND SYRINGES FOR COVID-19**

**1.0 SCOPE:** The Contractor, as an independent Contractor and not as an agent of the Government, shall furnish the necessary resources as specified in this Statement of Work (SOW), to manufacture and/or supply Safety Needles and Syringes.

**2.0 BACKGROUND:**

On Friday, March 13, 2020, the President declared a national emergency concerning the novel coronavirus disease (COVID-19) under section 501(b) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5207 (the “Stafford Act”).

The mission of the Division of Strategic National Stockpile (DSNS), of the United States (U.S.) Department of Health and Human Services (HHS) Office of the Assistant Secretary for Preparedness and Response (ASPR), is to ensure the availability and rapid deployment of life-saving pharmaceuticals, antidotes, other medical supplies, and equipment necessary to counter the effects of nerve agents, biological pathogens, and chemical agents. When state, local, tribal, and territorial public health and medical systems request federal assistance to support their response efforts, DSNS ensures the right medicines and supplies get to those who need them most during an emergency. When the vaccine becomes available the Government will have an immediate need to begin vaccinating the entire U.S. population. To administer the vaccine the Government will require needles and syringes to be available.

There is an insufficient domestic supply of safety needles and syringes to meet the projected needs to vaccinate the nation’s entire population against COVID-19. Should vaccine programs be accelerated, demand could outpace available devices to administer a vaccine.

**3.0 OBJECTIVE:** The HHS currently has contracts in place with three (3) major manufacturers to provide needles and syringes supplies to support the initial preparedness needs at the onset of a pandemic outbreak. The objective of this acquisition is to supplement the current supply and establish contracts with additional manufacturers and suppliers to provide a quantity of up to 500 million safety needles and syringes supplies.

**4.0 REQUIREMENTS:**

**4.1. General:**

4.1.1. The Contractor shall “host” a ***Kick-Off Meeting*** within one (1) calendar day after contract award via teleconference. The Contractor shall provide ***Meeting Minutes*** containing a detailed overview of the meeting discussions in accordance with (IAW) Contract Data Requirements List

(CDRL) A001.

4.1.1.1. The Contractor shall provide a *Certificate of Analysis* with each shipment per the DD Form 1423, Contract Data Requirements List (CDRL) A002, confirming the supplies described below meet the Performance Specifications in paragraph 4.2 below.

4.1.2. The Contractor shall provide copies of *510(k) Approval Letters* for ALL supplies (dispensing syringes or needles) to demonstrate compliance with Section 510(k) of the *Food, Drug and Cosmetic Act* as part of their proposal. The Contractor shall provide, if necessary, *510(k) Approval Letters Updates* if any information from the initial 510(k) Approval Letters is changed/needs to be updated.

4.1.2.1.1. The Contractor shall ensure all supplies have a “*Shelf-Life*” with expiration dates of no less than five (5) years from the date of sterilization, **and** must have at least four (4) years of remaining expiry from the time of shipment.

4.1.2.1.2. The Contractor shall only use *Current Good Manufacturing Practice (cGMP)* processes to manufacture the needles and syringes.

4.1.2.1.3. **Period of Performance/Delivery Dates.** See the “Delivery Schedule” section of this Contract and “Attachment 2-Shipping Information” for all delivery requirements and shipping locations.

In order to meet the specified quantities upon contract award and comply with the specifications in this SOW, the following may be provided: (1) individually wrapped sterile syringes with individually wrapped sterile needles in a one-to-one (1:1) ratio, (2) sterile needle/syringe combination unit, or (3) a mixture of sterile combination units **and** individually wrapped sterile syringes with equal number of individually wrapped sterile needles.**

b. Group II.
