Day 1: Tuesday, June 28, 2016

Purpose: The June 2016 meeting of the Advisory Committee on Training in Primary Care Medicine and Dentistry (ACTPCMD) will contribute to the development of the 14th ACTPCMD report to the Secretary of the Department of Health and Human Services and Congress. The focus of Day 1 will be to review the activities under Title VII, Part C, sections 747 and 748 of the Public Health Service (PHS) Act including performance measures, longitudinal evaluations, and appropriation levels for programs administered under this authority

Meeting Objectives (Day 1):

1. Review the programs administered under Title VII, Part C, sections 747 and 748 of the PHS Act
2. Discuss the current performance and longitudinal evaluation measures as well as appropriations for these programs.
3. Outline next steps for developing recommendations for programs covered under the above authority to include the following elements: performance evaluation, longitudinal evaluation, appropriations and any policy changes.

Day 2: Wednesday, June 29, 2016

Purpose: Integrating behavioral health services into primary care settings offers a promising, viable, and efficient way of ensuring that people have access to needed behavioral health services. The Committee will review a) What does it mean to integrate behavioral health content into primary care medicine and dentistry training programs? b) What are the best practices that demonstrate the integration of behavioral health content into primary care medicine and dentistry education and training programs, and c) What are the challenges and barriers to the integration of behavioral health content into primary care medicine and dentistry training programs? How can these challenges and barriers be addressed?

Meeting Objectives (Day 2):

1. Discuss the content/elements of a training program designed to integrate primary care or dentistry with behavioral health.
2. In the context of the training environment, discuss the role of the five levels of primary care behavioral healthcare collaboration integration as a developmental process.
3. Focus and prioritize the training goals for primary care and/or dentistry -behavioral health integration.

8:30 – 8:45 AM
