

Notice to Covered Entities Regarding Replenishment of Biogen-labeled Alprolix and Eloctate

Bioverativ has become aware that as Biogen-labeled (labeler code: 64406) Alprolix and Eloctate becomes depleted the need may arise to replenish inventory with Bioverativ-labeled (labeler code: 71104) product. Bioverativ has contacted the Office of Pharmacy Affairs (OPA) and has provided approval to replenish Biogen-labeled NDC Alprolix and Eloctate with Bioverativ-labeled NDC product for appropriate 340B patient use.

Current Bioverativ 340B customers should expect a communication from Bioverativ soon. This communication should be kept for auditable records per guidance from OPA. Should you have any questions, please contact your Bioverativ Channel Manager.
