August 10, 2015

Bureau of Primary Health Care
Health Resources and Services Administration
U.S. Department of Health and Human Services

Grantee Portfolio

Health Centers: Affordable Care for All

1,202 Health Centers

9,208 Health Center
Service Sites

156,817 Jobs

Primary Care Service

Health Centers Serve*

More
than...

21.7 Million
Patients Annually

Including nearly 5 million
new patients in the past 5
years

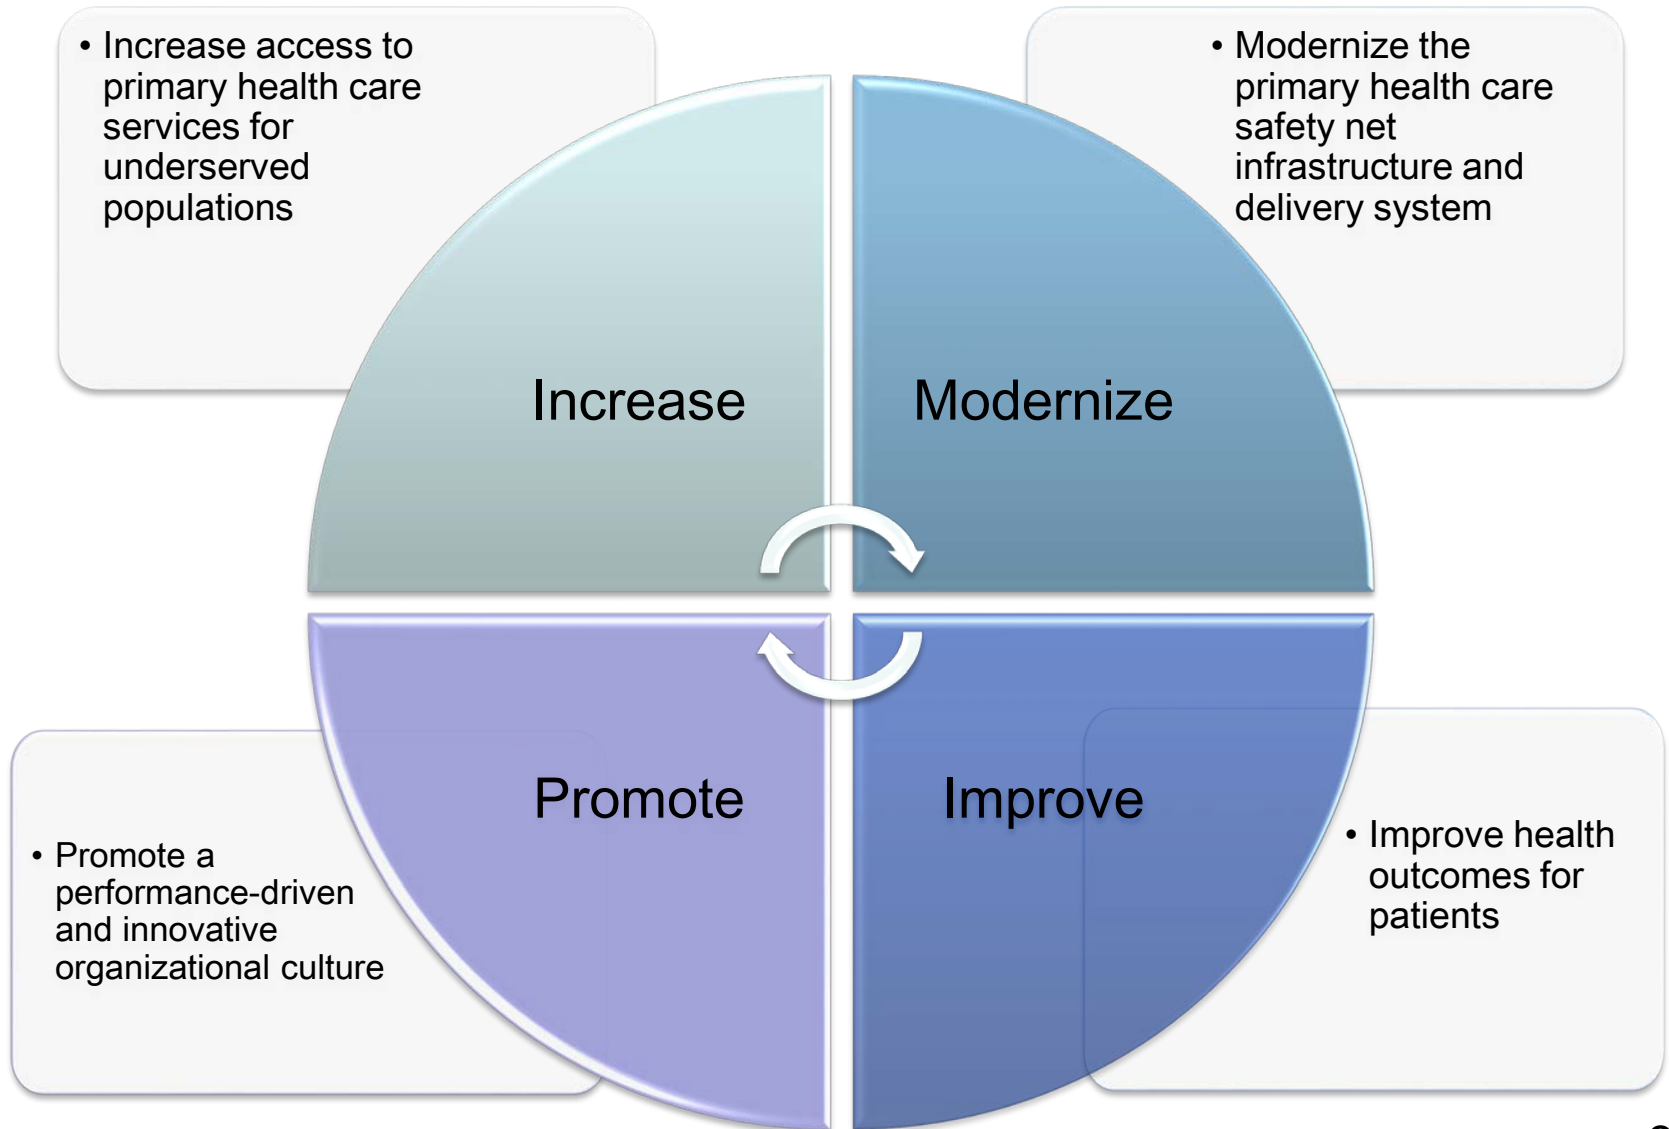

One in 15 people living in
the United States,
including:

1 in 4
Individuals living
below poverty

1 in 6
Uninsured persons
in the United States

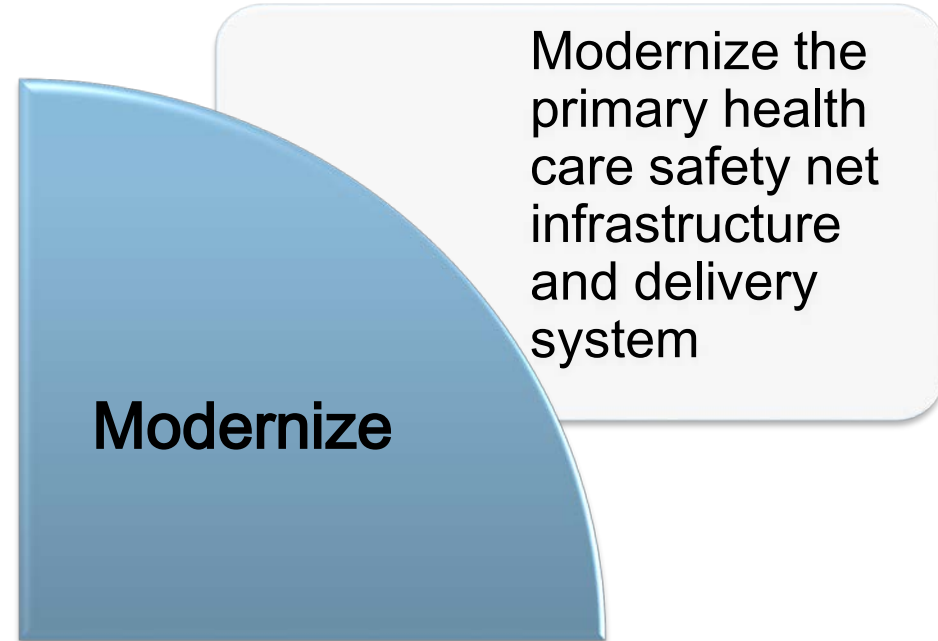

Primary Care Strategy: Modernize Infrastructure and Systems

Accomplishments:

- Modernized nearly 2,300 service delivery sites
- 96% of health centers have installed Electronic Health Records (EHR)
- 59% of health centers are Patient Centered Medical Home (PCMH) recognized

Program Goals:

- Increase % of health centers that report UDS data using an EHR
- Increase % of health centers reaching Stage 2 Meaningful Use Standards
- Increase % of health centers with PCMH at all sites
- Increase % of health centers with modernized facilities

Primary Care Strategy: Improve Health Outcomes

Accomplishments:

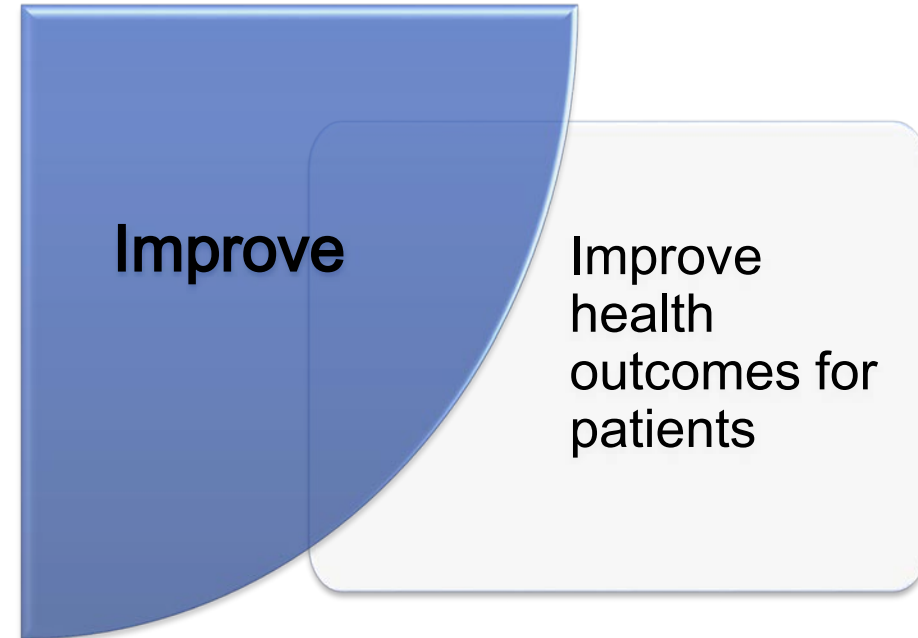

- \$36 million in Quality Improvement Awards, recognizing key areas of quality improvement

Clinical outcomes in certain areas routinely:

- Surpass national averages; and
- Close the gap on disparities

Program Goals:

- Increase % of health centers exceeding Healthy People 2020 goals
- Increase % of health centers improving performance on quality measures
- Increase % of health centers that provide integrated care
